Make a UNO to best fit your
store display

Key Features

▲ CLASS LEADING DESIGN

UNO is the most elegant way of securely presenting your portable electronics including smartphones, tablets, cameras, smart watches, navigation and audio equipment. The transparent display stands elevate the presented products and provides stores a invisible but secure solution.

▲ EFFICIENT

UNO is the fastest way to secure & organize your product presentation. All electronics are integrated in a compact controller which is placed on the top of a display in minutes. The controller is also the support for the acrylic display stands. Changing the displayed merchandise is a matter of few simple actions and easily doable by store staff.

▲ ONE FOR ALL

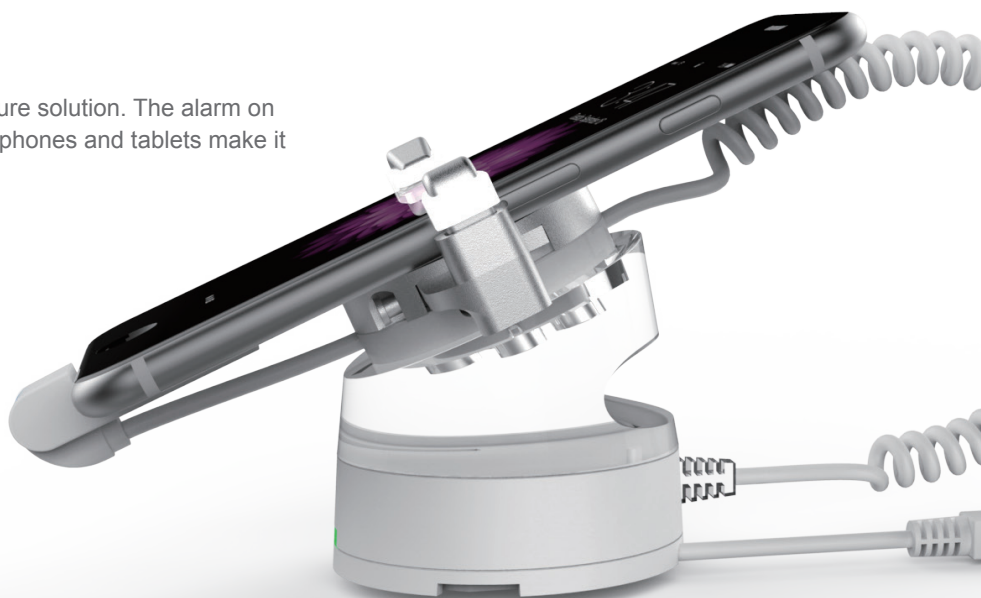

A series of acrylic display stands and sensors make UNO the perfect companion for all categories of consumer electronics. Whether you have a wall or table top display, UNO is designed to perform and fulfill your requirements.

▲ NO COMPROMISE

UNO not only looks good but is also a secure solution. The alarm on the powerplug and options like clamps for phones and tablets make it suitable for various security requirements.
