

NANOSAFE F5562

NANOSAFE (F5562), Century’s newest member of the Safers Family, fits the most popular toy-cars models, USB sticks, and other small accessories on the market. It is an innovative and ingenious lock design. The merchandise can be displayed perfectly with their original hooks. Transparent material offers a great view of product information and packaging, preventing high-value products from being swapped or stolen.

Features

- Innovative and ingenious Click-pin lock design
- Robust metal axis hinges
- Keeps original package intact
- Excellent for open merchandising
- AM, RF, AM+RF are available
- Easy to use & reuse
