- ▲ 2.4G technology for reliable remote control.

Specification

Battery protection duration (not powered on)	8h
Alarm time	2min
Input current	1.8A
Input voltage	5.8V
Alarm volume	>90dB
Usage environment	Temperature: 0~40°C (32~104 °F) Humidity: 20%~85%
Charging protection cable length:	150cm (The spring cable has some error)
Disalarm distance	≤1m

Product size (unit:mm)

Component

1. Acrylic stand
2. Main controller
3. USB-A Power plug
4. MICRO - USB connection port
5. Screw hole
