Century's latest METALKEEPER AM System (CA88) features a sleek acrylic design with integrated AM + Metal Detection, delivering enhanced performance and a modern, premium look that elevates any retail space. Supporting cascade configuration, it protects aisles up to 2 meters without interference. Flexible tuning options—including local software, mobile app, and remote control via Century's Cloud System (V-Station)—ensure fast, efficient on-site support and seamless operation.

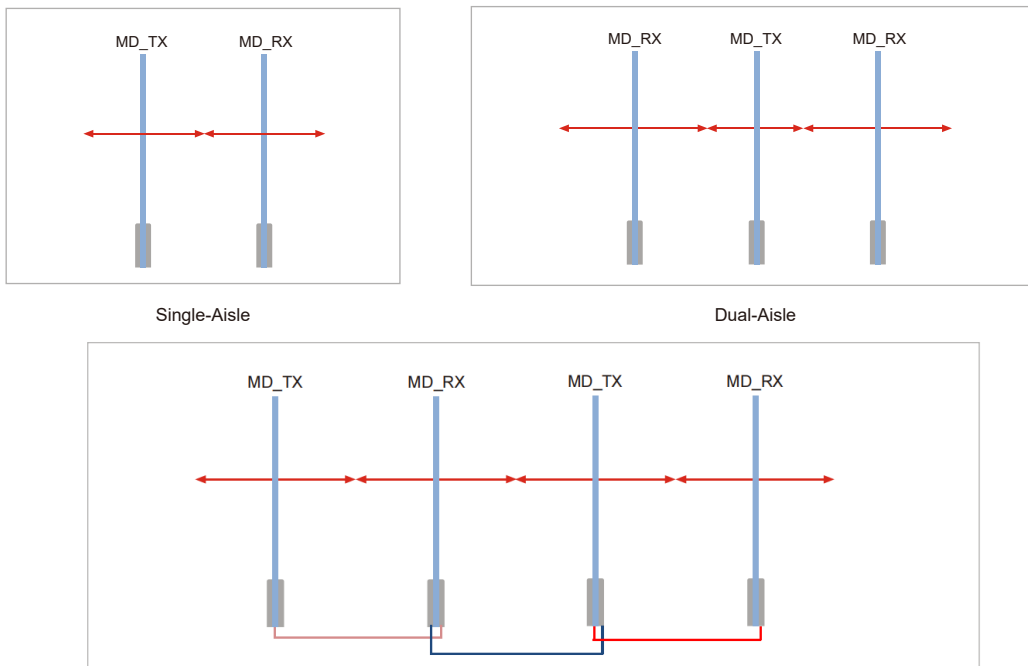

Features

- ▶ Up to 2 m aisle coverage based on minimum A4-size metal foil detection
- ▶ Dual-technology design with cascade support for up to 8 antennas
- ▶ Flexible tuning options via local software, mobile APP, and remote control

Specifications

Central Frequency	20-28 KHz (MD) and 58 KHz (AM)
Power Supply	24 VDC
Power Consumption	< 25 W
Detection Distance	Up to 2 m aisle coverage based on minimum A4-size metal foil *Standard distance may vary by installation environment and can be greater depending on surrounding conditions.
Dimensions	1606.3 x 403.1 x 131.0 mm
Acrylic Thickness	20 mm

Modes of Combinations

Note: For installation details, please refer to installation instructions.
